

I am writing to comment on letting LPFM stations take priority over current FM translator services.

In particular I am writing about AIR1, a Christian station that is rebroadcast into my area. I find AIR1 a refreshing alternative to the junk that is on regular commercial radio. It provides uplifting music that I would not be able to find on any other station in my area. It is also a station that I can let my children listen to without any fear they will hear something inappropriate.

In summation I would be extremely disappointed if AIR1 were displaced by some other station and I believe it would not be in the public interest to allow it either.

Thank you for your time.
